## INSTALLATION MANUAL

1a This is how the original dashboard looks like in 5 inch configuration.

1b This is how the original dashboard looks like in 8.4 inch configuration.

IF THE OEM DASHBOARD IS LIKE PICTURE 1a (CONFIGURATION 5 INCH) DO **NOT USE** THE SPACERS SHOWN IN THE PICTURE 5a  
IF THE OEM DASHBOARD IS LIKE PICTURE 1b (CONFIGURATION 8.4 INCH) **USE** THE SPACERS SHOWN IN THE PICTURE 5a

2 Remove the OEM dashboard as shown in the picture.

3 Remove and save the 4 screws circled in Red.  
Disconnect all cables and remove the OEM Radio from the radio tunnel.

4 Fix the brackets to the Radio by tightening the 3 screws per side supplied in the kit.

5 Fix the fascia plate to the brackets using the 2 black screws and the 2 spacers as shown in the picture 5a.

6 Connect all cables, verify the proper functioning of the system and install the radio in the radio tunnel by fixing the 4 screws saved at point 3.

7 Install the OEM Dashboard previously removed.
