Operating Instructions

WARNING

WARNING

This symbol means important instructions. Failure to heed them can result in serious injury or death.

DO NOT DISASSEMBLE OR ALTER.

Doing so may result in an accident, fire or electric shock.

KEEP SMALL OBJECTS SUCH AS BATTERIES OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

BEFORE WIRING, DISCONNECT THE CABLE FROM THE NEGATIVE BATTERY TERMINAL.

Failure to do so may result in electric shock or injury due to electrical shorts.

DO NOT SPLICE INTO ELECTRICAL CABLES.

Never cut away cable insulation to supply power to other equipment. Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock.

DO NOT DAMAGE PIPE OR WIRING WHEN DRILLING HOLES.

When drilling holes in the chassis for installation, take precautions so as not to contact, damage or obstruct pipes, fuel lines, tanks or electrical wiring. Failure to take such precautions may result in fire.

DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.

Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.

DO NOT ALLOW CABLES TO BECOME ENTANGLED IN SURROUNDING OBJECTS.

Arrange wiring and cables in compliance with the manual to prevent obstructions when driving. Cables or wiring that obstruct or hang up on places such as the steering wheel, shift lever, brake pedals, etc. can be extremely hazardous.

USE THIS PRODUCT FOR MOBILE 12V APPLICATIONS.

Use for other than its designed application may result in fire, electric shock or other injury.

MAKE THE CORRECT CONNECTIONS.

Failure to make the proper connections may result in fire or product damage.

CAUTION

This symbol means important instructions. Failure to heed them can result in injury or material property damage.

USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.

Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure.

DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.

Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.

The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done.

ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.

Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges. This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole.

PRECAUTIONS

On handling the iPod™

The iPod has not been designed to withstand automotive temperature extremes. Therefore, you should not leave the iPod in a vehicle for extended periods. Leaving the iPod inside a vehicle on a moderately hot or very cold day may damage the iPod. For further details on the iPod's non-operating storage temperature, please consult your iPod's documentation.

CAUTION

- Alpine accepts no responsibility for lost data, etc., even if data, etc., is lost while using this product.
- Do not leave the iPod in a vehicle for a long time. Heat and humidity may damage the iPod and you may not be able to play it again.

Installation

Velcro fastener Mounting

1 Attach the Velcro fasteners.

Attach two Velcro fasteners to the mounting surface. The rough side should be facing the adapter.

2 Press the adapter onto the Velcro fastener in the mounting position.

Remove the backing to the adhesive on the Velcro strips. Press the adapter on the mounting location.

Screw-down Mounting

1 Using the adapter as a template, hold it in the mounting location and mark the holes to be drilled. Before drilling, make sure that there are no objects that could be damaged behind the mounting surface.

2 Drill holes and secure the adapter with the self-tapping screws (M4 x 14) supplied.

CAUTION

If the iPod connection cable is damaged due to improperly connecting the iPod, it may result in iPod failure.

Connections

When connecting the adapter, confirm the iPod software version. The adapter does not support software versions prior to iPod Update 2004-04-28. (see "About the adapter-compatible iPod™" on page 15).

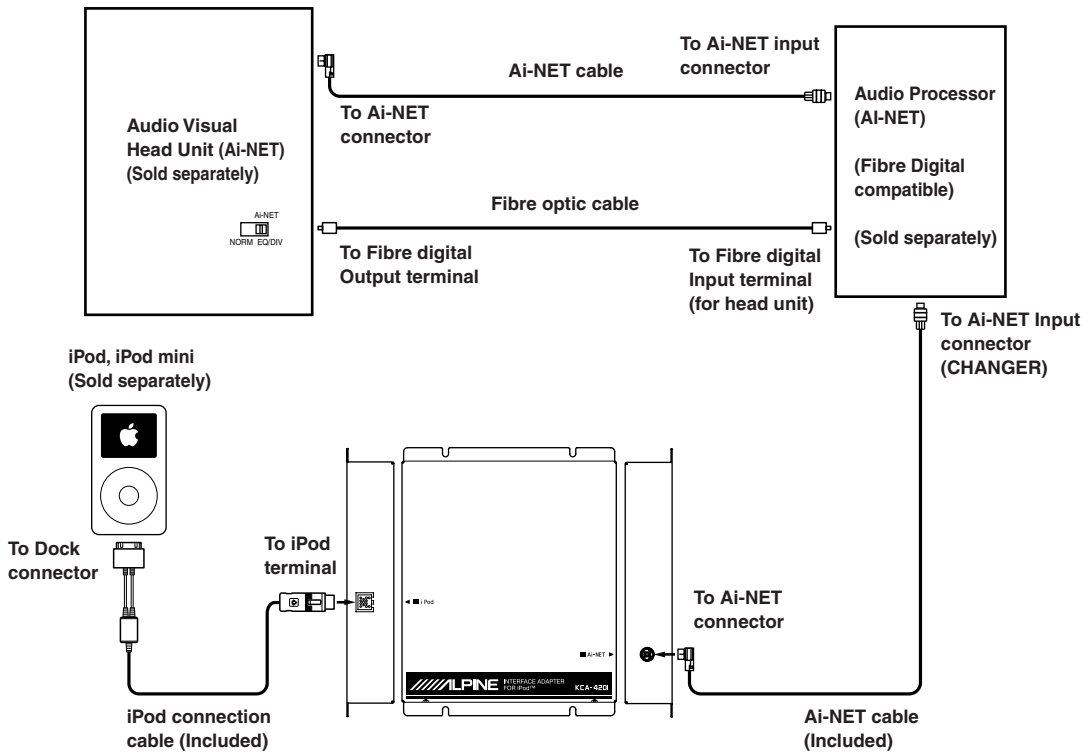

1) Connect the iPod™ to the Ai-NET compatible Head Unit

2) Connect the iPod™ to the Ai-NET compatible Head Unit and CD Changer

3) Connect the iPod™ to the Ai-NET compatible Audio Visual Head Unit and Audio Processor

- While connected to the adapter, the iPod is charged as long as the vehicle's ignition key is turned to ACC or ON.
- "OK to disconnect" is shown in the iPod's display while it is connected to the adapter.
- For details, refer to the Owner's Manual of the connected devices.

Operation

By using this adapter, an iPod or iPod mini is controlled from an Alpine Ai-NET head unit. The following table shows which head units can be used for this purpose.

(Ai-NET compatible head unit sold as of January 2004)

To customers in Europe

CD Head Unit	CDA-9835R*	NAVI/CD	INA-N333RS
	CDA-9833R*	Head Unit	INA-N333RRS
	CDA-9831R*	A/V Head Unit	IVA-D300R
	CDA-9830R*		IVA-D300RB
	CDA-9812RB*		IVA-D900R
	CDA-9812RR*		CVA-1004R
		CVA-1004RR	

To customers outside Europe

CD Head Unit	CDA-9835*	CD/CST	CDA-W560E
	CDA-9833*	Head Unit	CDA-W560EG
	CDA-9831*	MD/CD Head Unit	MDA-W905E
	CDA-9830*	A/V Head Unit	IVA-D300E
	CDA-9827*		IVA-D900R
	CDA-9826*		CVA-1004R
CDA-9825*			

* Hereafter referred to as the CD head unit.

For operation using an Alpine Ai-NET head unit sold as of January 2005, refer to the head unit's Owner's Manual.

All of the iPod's buttons are disabled when connected to this adapter. Perform the operation from the head unit.

Operation of the iPod from the Ai-NET head units shown in the table above, closely follows the MP3 compatible CD changer operation. For details, refer to the Owner's Manual of the head unit.

For each function, refer to the iPod's documentation.

Turning Power On and Off

1 The iPod power turns on as soon as it is connected to this adapter.

As soon as the iPod is connected, power is automatically turned on as long as the vehicle's ignition is ON or in ACC mode. The head unit's power does not have to be on.

The iPod's power can be turned OFF after removing the iPod from the adapter. When the iPod is left connected to the adapter, power is automatically turned off when the vehicle's ignition key is turned OFF. (The iPod is paused and goes into sleep mode about 2 minutes later.)

- While the iPod is connected to the adapter, the power cannot be turned on or off from the iPod.
- "OK to disconnect" is shown in the iPod's display while it is connected to the adapter.
- While connected to the adapter, the iPod is charged as long as the vehicle's ignition key is turned to ACC or ON.

Recalling the iPod™ mode

- The iPod mode is displayed in the same way as the CD changer mode.
- If using the iPod with a changer, the Versatile Link Terminal (KCA-410C) must be used. In this case, press **BAND** to select the changer mode applicable to the iPod.

Controlling from the CD head unit/CDA-W560E/CDA-W560EG/MDA-W905E/INA-N333RS/INA-N333RRS/CVA-1004R/CVA-1004RR models

1 Press **SOURCE/POWER** or **SOURCE/PWR** to switch to the CD changer mode.

The iPod is controllable from the head unit in the CD changer mode.

Controlling from the IVA-D900R model

1 Press **SOURCE/POWER** to display the main menu.

2 Turn the **Rotary encoder** to select "CD CHG," then press the **Rotary encoder**.

The display changes to the CD changer mode screen, then the iPod can be controlled.

Controlling from the IVA-D300R/IVA-D300RB/IVA-D300E models

1 Touch **[SRC]** on the main source screen.

The source selection screen is displayed.

2 Touch **[CD CHG]**.

The display changes to the CD changer mode screen, then the iPod can be controlled.

Adjusting Volume

1 Turn the **Rotary encoder** until the desired sound is obtained.

- If the INA-N333RS/INA-N333RRS models are connected, turn the **MODE (Audio Control)** knob.

Listen to iPod™ Songs

1 Press ◀◀ or ▶▶ to select the desired song.

Return to the beginning of the current song:

Press ◀◀.

Fast backward:

Press and hold ◀◀.

Advance to the beginning of the next song:

Press ▶▶.

Fast forward:

Press and hold ▶▶.

2 To pause playback, press ▶/||*.

Pressing ▶/|| again will resume playback.

* When the CDA-W560E/CDA-W560EG/MDA-W905E is connected, press ▶/||/ENT.

- With IVA-D300R/IVA-D300RB/IVA-D300E connected, perform the operation by touching on the display.
- With IVA-D900R connected, press [1] (◀◀), [3] (▶▶) or [2] (▶/||).
- If a song is playing on the iPod when it is connected to the adapter, it will continue playing after the connection.
- If there are more than 255 songs, they can be played back, but cannot be correctly displayed.

Searching for a desired Song

The folder/file search function of the head unit (disc search function for IVA-D300R/IVA-D300RB/IVA-D300E, title list display function for IVA-D900R) has been modified to accommodate the iPod.

Folder search.....Search by Song

File searchSearch by Playlist, Artist, Album**

**By selecting Disc 1, 2 or 3 in CD changer mode, you can choose the method by which to search.

Disc 1 selection : Playlist search mode

Disc 2 selection : Artist search mode

Disc 3 selection : Album search mode

- The maximum number of playlists, artists and albums that can be searched by the file search is 511.
- The maximum number of songs that can be searched by the folder search is 255.
- When the IVA-D900R is connected, the maximum number of a playlist/artist/albums that can be searched by the file search function is 255. If there are more than 255, the top playlist/artist/albums (1) cannot be moved directly to the bottom (255), and vice versa; they can only be moved sequentially in either direction.
- When the INA-N333RS/INA-N333RRS/CVA-1004R/CVA-1004RR is connected, if there are more than 255 playlist/artist/albums in the iPod, they can be searched sequentially (1-511). Otherwise, the playlist/artist/albums jumps to 255.
- When Shuffle (M.I.X.) is on, the search function cannot be used.
- If there is only a single playlist/artist/album stored in the iPod, none of the search modes will function.

- If a playlist search is performed, the "iPod's name" is displayed.
- If a song is selected in the artist search mode, further searches are by albums of that artist. To return to a search for all songs, select the "iPod name" in the playlist search mode.
- It is recommended that playlists consist of no more than 255 songs. Also, if all songs in the iPod are associated with a playlist, access to each song is more efficient.
- When connected to the adapter, and search is first performed, be sure to begin the operation from step 1.

Searching by Playlist

Controlling from the CD head unit

1 Press 1.

The playlist search mode is selected.

2 Press [SEARCH] to enter the file search mode.

The playlist name is displayed.

File search mode ↔ Folder search mode

3 Within 10 seconds, select a playlist by turning the Rotary encoder, then press the Rotary encoder.

The selected playlist will be played back repeatedly

Controlling from the CDA-W560E/CDA-W560EG/MDA-W905E models

1 Press ◀ or ▶ to select 1.

The playlist search mode is selected.

2 Press [SEARCH] to enter the folder search mode.

The song name is displayed.

3 Within 10 seconds, press ◀ or ▶ to select any song, then press ▶/||/ENT.

The file search mode is entered and the playlist is displayed.

4 Within 10 seconds, press ◀ or ▶ to select the desired playlist, then press ▶/||/ENT.

The selected playlist will be played back repeatedly.

Continued

Controlling from the INA-N333RS/INA-N333RRS models

- 1 Press 1.**
The playlist search mode is selected.
- 2 Press and hold MODE for at least 2 seconds to enter the file/folder search mode.**
- 3 Press and hold ►/II for at least 2 seconds to change to the file search mode.**
The playlist name is displayed.
- 4 Move the Flipper switch up or down or press the ◀◀ or ▶▶ to select the desired playlist.**
- 5 Press OK or MODE.**
The selected playlist will be played back repeatedly.

Controlling from the CVA-1004R/CVA-1004RR models

- 1 Press 1.**
The playlist search mode is selected.
- 2 When the monitor is open, press and hold the Rotary encoder for at least 2 seconds during playback.**
The unit switches to file/folder search mode, and the playlist/song name list is displayed.
- 3 Press and hold ►/II for at least 2 seconds to select file search.**
The playlist name is displayed.
- 4 Press ◀◀ or ▶▶ to select the desired playlist.**
- 5 Press the Rotary encoder.**
The selected playlist will be played back repeatedly.

Controlling from the IVA-D900R model

- 1 Press [7] (Page 1/3) twice.**
The Function Guide display changes.
- 2 Press [1] (DISC1).**
The playlist search mode is selected.
- 3 Press LIST/INPUT.**
The song list screen is displayed.
- 4 Press [6] (NEXT ►).**
The playlist name is displayed.
- 5 Turn the Rotary encoder to select desired playlist, then press the Rotary encoder.**
The selected playlist will be played back repeatedly.

Controlling from the IVA-D300R/IVA-D300RB/IVA-D300E models

- 1 Touch [P1/3] on the function guide to change to [P3/3].**
The disc number is displayed.
- 2 Touch [DISC 1].**
The playlist search mode is selected.
- 3 Touch [P3/3] to change to [P1/3].**
The function guide changes.
- 4 Touch [☐] on the function guide.**
The song list screen is displayed.
- 5 Touch [➤] of any song.**
The playlist search mode is entered, then the playlist screen appears.
- 6 Touch [▶] of the desired playlist name.**
The selected playlist will be played back repeatedly.

Searching by artist name

Controlling from the CD head unit

- 1 Press 2.**
The artist search mode is selected.
- 2 Press [☐] (SEARCH) to enter the file search mode.**
The artist name is displayed.
File search mode ↔ Folder search mode.
- 3 Within 10 seconds, select an artist by turning the Rotary encoder, then press the Rotary encoder.**
All songs of the selected artist will be played back repeatedly.
The search mode will be automatically changed to the album search mode, and the disc number is displayed as 3.
- 4 To search for an album of a selected artist, repeat the operations in steps 2 and 3.**
All songs of the selected album will be played back repeatedly.
- 5 To search for a song by a selected artist or album, change from the file search mode to folder search mode by pressing [☐] (SEARCH) again, and repeat the operation in step 3.**
The selected song will be played back repeatedly.

Controlling from the CDA-W560E/CDA-W560EG/ MDA-W905E models

- 1 Press ◀ or ▶ to select 2.**
The artist search mode is selected.
- 2 Press  (SEARCH) to enter the folder search mode.**
The song name is displayed.
- 3 Within 10 seconds, press ◀ or ▶ to select any song, then press ▶/II/ENT.**
The file search mode is entered and the artist name is displayed.
- 4 Within 10 seconds, press ◀ or ▶ to select a desired artist, then press ▶/II/ENT.**
All songs of the selected artist will be played back repeatedly.
- 5 To search for an album in a selected artist repeat the operations in steps 2 to 4.**
All songs of the selected album will be played back repeatedly.

Controlling from the INA-N333RS/INA-N333RRS models

- 1 Press 2.**
The artist search mode is selected.
- 2 Press and hold MODE for at least 2 seconds to enter the file/folder search mode.**
- 3 Press and hold ▶/II for at least 2 seconds to change to the file search mode.**
The artist name is displayed.
- 4 Move the Flipper switch up or down or press the ◀◀ or ▶▶ to select the desired artist.**
- 5 Press OK or MODE.**
All songs of the selected artist will be played back repeatedly.
The search mode will be automatically changed to the album search mode, and the disc number is displayed as 3.
- 6 To search for an album by the selected artist, repeat the operations in steps 2 to 5.**
All songs of the selected album will be played back repeatedly.
- 7 To search for a song in a selected artist or album, change to the folder search mode by the operations in steps 2 and 3. Then select the desired song by the operations in steps 4 and 5.**
The selected song will be played back repeatedly.

Controlling from the CVA-1004R/CVA-1004RR models

- 1 Press 2.**
The artist search mode is selected.
- 2 When the monitor is open, press and hold the Rotary encoder for at least 2 seconds during playback.**
The unit switches to file/folder search mode, and the artist/song name list is displayed.
- 3 Press and hold ▶/II for at least 2 seconds to select file search.**
The artist name is displayed.
- 4 Press ◀◀ or ▶▶ to select the desired artist.**
- 5 Press the Rotary encoder.**
All songs of the selected artist will be played back repeatedly.
The search mode will be automatically changed to the album search mode, and the disc number is displayed as 3.
- 6 To search for an album by the selected artist, repeat the operations in steps 2 to 5.**
All songs of the selected album will be played back repeatedly.
- 7 To search for a song in a selected artist or album, change to the folder search mode by the operations in steps 2 and 3. Then select the desired song by the operations in steps 4 and 5.**
The selected song will be played back repeatedly.

Controlling from the IVA-D900R model

- 1 Press  (Page 1/3) twice.**
The Function Guide display changes.
- 2 Press  (DISC2).**
The artist search mode is selected.
- 3 Press LIST/INPUT.**
The song list screen is displayed.
- 4 Press  (NEXT ▶).**
The artist name is displayed.
- 5 Turn the Rotary encoder to select desired artist, then press the Rotary encoder.**
All songs of the selected artist will be played back repeatedly.
The search mode will be automatically changed to the album search mode, and the disc number is displayed as 3.
- 6 To search for an album of a selected artist, repeat the operations in steps 3 through 5.**
The song of the selected album will be played back.

Continued

Controlling from the IVA-D300R/IVA-D300RB/ IVA-D300E models

- 1 Touch [P1/3] on the function guide to change to [P3/3].**
The disc number is displayed.
- 2 Touch [DISC 2].**
The artist search mode is selected.
- 3 Touch [P3/3] to change to [P1/3].**
The function guide changes.
- 4 Touch [☐] on the function guide.**
The list screen of the song is displayed.
- 5 Touch [➤] of any song.**
The artist search mode is entered, then the artist list screen is displayed.
- 6 Touch [▶] of the desired artist name.**
All songs of the selected artist will be played back repeatedly.
The search mode will be automatically changed to the album search mode, and the disc number is displayed as 3.
- 7 To select successive albums, repeat the operations in steps 4 through 6.**
The songs in the selected album will be played back repeatedly.

Searching by album name

Controlling from the CD head unit

- 1 Press 3.**
The album search mode is selected.
- 2 Press ☐ (SEARCH) to enter the file search mode.**
The album name is displayed.
File search mode ↔ Folder search mode
- 3 Within 10 seconds, select an album by turning the Rotary encoder, then press the Rotary encoder.**
All songs of the selected album will be played back repeatedly.
- 4 To search for a song in a selected album, change to the folder search mode by pressing ☐ (SEARCH), and repeat the operation in step 3.**
The songs in the selected album will be played back repeatedly.

Controlling from the CDA-W560E/CDA-W560EG/ MDA-W905E models

- 1 Press ◀ or ▶ to select 3.**
The album search mode is selected.
- 2 Press ☐ (SEARCH) to enter the folder search mode.**
The song name is displayed.
- 3 Within 10 seconds, press ◀ or ▶ to select any song, then press ▶/II/ENT.**
The file search mode is entered and the album name is displayed.
- 4 Within 10 seconds, press ◀ or ▶ to select an album, then press ▶/II/ENT.**
All songs of the selected album will be played back repeatedly.

Controlling from the INA-N333RS/INA-N333RRS models

- 1 Press 3.**
The album search mode is selected.
- 2 Press and hold MODE for at least 2 seconds to enter the file/folder search mode.**
- 3 Press and hold ▶/II for at least 2 seconds to change to the file search mode.**
The album name is displayed.
- 4 Move the Flipper switch up or down or press the ◀◀ or ▶▶ to select the desired album.**
- 5 Press OK or MODE.**
All songs of the selected album will be played back repeatedly.
- 6 To search for a song in a selected album, change to the folder search mode by the operations in steps 2 and 3. Then select the desired song by the operations in steps 4 and 5.**
The songs in the selected album will be played back repeatedly.

Controlling from the CVA-1004R/CVA-1004RR models

- 1 Press 3.**
The album search mode is selected.
- 2 When the monitor is open, press and hold the Rotary encoder for at least 2 seconds during playback.**
The unit switches to file/folder search mode, and the album/song name list is displayed.
- 3 Press and hold ►/II for at least 2 seconds to select file search.**
The album name is displayed.
- 4 Press I◀◀ or ▶▶I to select the desired album.**
- 5 Press the Rotary encoder.**
All songs of the selected album will be played back repeatedly.
- 6 To search for a song in a selected album, change to the folder search mode by the operations in steps 2 and 3. Then select the desired song by the operations in steps 4 and 5.**
The songs in the selected album will be played back repeatedly.

Controlling from the IVA-D900R model

- 1 Press [7] (Page 1/3) twice.**
The Function Guide display changes.
- 2 Press [3] (DISC3).**
The album search mode is selected.
- 3 Press LIST/INPUT.**
The song list screen is displayed.
- 4 Press [6] (NEXT ►).**
The album name is displayed.
- 5 Turn the Rotary encoder to select desired album, then press the Rotary encoder.**
All songs of the selected album will be played back repeatedly.

Controlling from the IVA-D300R/IVA-D300RB/IVA-D300E models

- 1 Touch [P1/3] on the function guide to change to [P3/3].**
The disc number is displayed.
- 2 Touch [DISC 3].**
The album search mode is selected.
- 3 Touch [P3/3] to change [P1/3].**
The function guide changes.
- 4 Touch [□] on the function guide.**
The list screen of the song is displayed.
- 5 Touch [➤] of any song.**
The album search mode is entered, then the album list screen is displayed.
- 6 Touch [▶] of the desired album name.**
All songs of the selected album will be played back repeatedly.

Searching by song name

If a song is selected using the playlist/artist/album search mode, new song searches will only display songs from the current playlist/artist/album. To search all songs in the iPod, select the "iPod name" in the playlist search mode, and then perform the search.

- When the CDA-W560E/CDA-W560EG/MDA-W905E/IVA-D900R/IVA-D300R/IVA-D300RB/IVA-D300E models are connected, a search cannot be performed by the song name.
- If the "iPod's name" contains characters not supported by the head unit's display, "NO SUPPORT" or "NO SUPRT" may be displayed for the "iPod's name."

Controlling from the CD head unit

- 1 Enter the folder search mode by pressing [□] (SEARCH).**
The song name is displayed.
File search mode ↔ Folder search mode
- 2 Within 10 seconds, select the song name by turning the Rotary encoder, then press the Rotary encoder.**
The selected song will be played back.

Continued

Controlling from the INA-N333RS/INA-N333RRS models

- 1 Press and hold **MODE** for at least 2 seconds to enter the file/folder search mode.
- 2 Press and hold **▶/||** for at least 2 seconds to change to the folder search mode.
The song name is displayed.
- 3 Move the Flipper switch up or down or press the **◀◀** or **▶▶** to select the desired song.
- 4 Press **OK** or **MODE**.
The selected song will be played back.

Controlling from the CVA-1004R/CVA-1004RR models

- 1 When the monitor is open, press and hold the **Rotary encoder** for at least 2 seconds during playback.
The unit switches to file/folder search mode.
- 2 Press and hold **▶/||** for at least 2 seconds to select folder search.
- 3 Press **◀◀** or **▶▶** to select the desired song.
- 4 Press the **Rotary encoder**.
The selected song will be played back.

Quick Search

You can search for songs.

- If there are more than 255 songs, they can be played back, but cannot be correctly displayed.
- When the INA-N333RS/INA-N333RRS/CVA-1004R/CVA-1004RR/IVA-D900R/IVA-D300R/IVA-D300RB/IVA-D300E models are connected, the quick search function cannot be used.
- The Quick search in the iPod mode takes more time than the normal Quick search.

Controlling from the CD head unit

- 1 Press and hold **SEARCH (SEARCH/QS)**  for at least 2 seconds to activate Quick Search mode.
- 2 Turn the **Rotary encoder** within 10 seconds to select a desired song.
The selected song is played back immediately.

Controlling from the CDA-W560E/CDA-W560EG/MDA-W905E models

Press and hold **◀◀** or **▶▶** to select the desired song (file number).

The selected song is played back immediately.

Random Play Shuffle (M.I.X.)

The Shuffle function of the iPod is displayed as M.I.X. on the head unit.

Shuffle Albums:

Select an album randomly in the iPod, and plays back the songs of the album in sequential order. If a song has been selected in the playlist/artist search mode before selecting Shuffle Album, only the albums within the playlist/artist are selected randomly. The songs of the album are played back sequentially.

Shuffle Songs:

All songs in the iPod are played back in random sequence. If a song has been selected in the playlist/artist search mode before selecting Shuffle song, only the songs of the playlist/artist/album are played back randomly.

- For details of the search mode, refer to “Searching for a desired Song” (page 7).
- If a song is selected in the album search mode before selecting Shuffle (M.I.X.), the songs will not play back randomly even when Shuffle album is selected.
- If there is no album in the playlist, Shuffle (M.I.X.) will not function even when Shuffle album is selected.
- When connected to the adapter, the Shuffle function of the iPod is cancelled and set to OFF.
- When using the IVA-D300R/IVA-D300RB/IVA-D300E models, the Shuffle (M.I.X.) function cannot be used.

Controlling from the CD head unit

- 1 Press **F** or **F/SETUP**.
The FUNC indicator lights.
 - When CDA-9835R/CDA-9835 is connected, the M.I.X./REPEAT/SCAN function guide is displayed.
 - When the CDA-9827/CDA-9826/CDA-9825 is connected, press **F/SETUP**. The underlined portion of the “FUNC” indicator lights.
- 2 Press **5** () within 5 seconds.
The songs will be played back in random sequence.

→  M.I.X. or  M.I.X. →  M.I.X. → (off)
(Shuffle Albums) (Shuffle Songs)
- 3 To cancel M.I.X. play, select **(off)** with the above procedure.

- 3 Touch **[↶]** again and select (off) to deactivate Repeat play.

Displaying the Text

You can display the playlist name, or the tag information of a song in the iPod.

The type of characters (number/letter, etc.) and the display order differs depending on the head unit. Refer to “Displaying the Title/Text” of the head unit’s Owner’s Manual.

The iPod data is displayed in the same way as MP3 data, with some minor differences.

Head Unit and iPod display indications (only the differences are displayed)

Head Unit	iPod
Folder No.	File No.*
File No.	(1) Fixed display
Folder Name	“----” fixed display
File Name	“iPod” fixed display
Frame	Not displayed**
SCAN Mode	Not displayed

- * The maximum file number that can be displayed is 255. Any file beyond 255 is still displayed as 255.
- ** Though the numeric value displayed differs from the actual sampling or bit rate (depending on head unit), this is not a malfunction.
- Only alphanumeric characters (ASCII) can be displayed.
- When the artist name, album name or song name is set on iTunes, and the amount of characters is increased, songs may not be played back when connected to the adapter. Therefore, a maximum of 250 characters is recommended. The maximum number of characters for the head unit is 64 (64 byte).
- After setting the ignition to ACC, ON or OFF, or reconnecting the iPod to the adapter, when the first song is played back, the artist name, album name or song name may not be correctly displayed.
- Some characters may not be correctly displayed.
- “NO SUPPORT” or “NO SUPRT” is displayed when text information is not compatible with the adapter. (The display differs depending on the head unit.)

Controlling from the CD head unit/CDA-W560E/ CDA-W560EG/MDA-W905E/INA-N333RS/INA- N333RRS/CVA-1004R/CVA-1004RR models

- 1 Press **TITLE** or **TITLE** (Ⓞ).
The playlist name or the tag information is displayed.

Information

In Case of Difficulty

iPod™

When reconnecting the iPod to the adapter, “DISC CHECK (DISC CHK)” remains displayed on the head unit, and playback does not start. (The display differs depending on the head unit.)

- Disconnect the iPod from the adapter (the iPod is reset). When the adapter is reconnected, confirmation appears in the display. For details on the iPod reset, refer to the iPod’s documentation.

Charging does not occur although the iPod is connected to the adapter.

- If the iPod’s battery remains too low, it cannot be charged even when connected to the adapter.
 - Refer to iPod’s documentation, and charge the battery.
- Charging from the adapter does not occur although the battery is in the iPod.
 - Consult your nearest Alpine dealer.

Indication for iPod Mode

The display may differ on head units sold as of January 2005. Refer to the Owner’s Manual specific to the head unit.

NO MAGZN

NO MAGZINE

NO MAGAZINE

(The indication differs depending on the head unit.)

- The iPod is not connected.
 - Make sure the iPod is correctly connected (refer to “Connections”).
Make sure the cable is not bent excessively.
- The iPod’s battery remains low.
 - Refer to the iPod’s documentation and charge the battery.

NO DISC

- There are no songs in the iPod.
 - Download songs to the iPod and connect to the adapter.

NO SUPRT

NO SUPPORT

(The display differs depending on the head unit.)

- Text information that is not compatible with the adapter has been input.
 - Play back a song whose input text information is compatible with the adapter.

ERROR01

ERROR 01

ERROR-01

(The indication differs depending on the head unit.)

- Communication error
 - Turn the ignition key off, and then set to ACC or ON again.
 - Check the display by reconnecting between the iPod and the adapter, using the iPod cable.

ERROR02

ERROR 02

ERROR-02

(The indication differs depending on the head unit.)

- Caused by the iPod Software Version not being compatible with the adapter.
 - Refer to “About the adapter-compatible iPod™” (this page), and update the iPod Software Version to be compatible with the adapter.

About the adapter-compatible iPod™

An iPod with a touchwheel or scrollwheel is not compatible with the dock connector, and therefore cannot be connected to the adapter.

The adapter does not support software versions prior to iPod Update 2004-04-28.

For supported versions, consult your nearest ALPINE dealer.

- For details on “iPod Software,” refer to iPod’s documentation.
